

record it, baby!

NEED A gift for new or expecting parents? If you don't want to risk your carefully selected stuffed toy blending in with the inevitable horde, check out Milestone Press.

A Book About Me is a baby record book with a difference. Frustrated with books overrun by cartoon characters and generic baby pictures, sisters-in-law Annabel Cornfoot and Fiona Collie designed a product for recording children's early years without the cheese.

Each book's hardback cover has screws, allowing pages to be removed and inserted according to personal preference. There are pages for adoptive families, for instance, and even a special page for the gift-giver to design for the child.

Their latest product, *My School Days*, allows kids a hand in creating their own keepsakes.
